

# Weyco Group: Shoebox Label Specification

for Bogs and Rafters Footwear

These are the specifications for our shoebox label for Bogs and Rafters brands; updated May 25, 2020. Affix one label to the lower right of each shoebox of footwear destined for US, Canada and Europe. Do not use this specification for Florsheim, Nunn Bush or Stacy Adams footwear.

- The label stock is between 95 and 102mm wide, between 35 and 38mm tall (4 x 1 1/2 inches) and bright white.
- Use the font Arial Narrow or Arial for all printing. If not available; use another proportional, sans-serif font that depicts the English Alphabet and Arabic Numerals with consistent heights and no descenders, such as Helvetica, Microsoft Sans Serif or Tahoma. Use capital letters only.
- The **SDM Codes** refer to the sample, damage, and mix codes we assign to every SKU.
- The **Coded Date** is three characters and represents the x-factory date. The first character is the letter whose position in the English alphabet corresponds to the month's position in the calendar year; use 'A' for January, 'B' for February, and so on. The second character represents the ten's digit of the year, use '1' for the 2010's. The third character is the letter corresponding to the one's digit of the year. Use 'A' for 2011, 'B' for 2012, etc.; use 'J' or "@" for 2020. As examples; January 2018 would be "A1H", December 2020 would be "L2J" or "L2@".
- The **Color Photo** is a full lateral view, toe-to-right, 30mm by 30mm (425 x 425 pixels, true color) color photo of the footwear inside. You can find these photos by signing into our vendor website, selecting a purchase order, then clicking 'Download Image' from the Purchase Order detail display.
- The **Style Name**, **Color Name**, **Style Number** and **Color Number** should have an 8-point font size. This font should allow enough room to print a 15-character Style Name or a 20-character Color Name, without obscuring any other information. The English and French color names can be found on our website at <https://sales.weycogroup.com/vendor/vnd/POSelect.html>.

7. **Gender** is "MENS / HOMMES", "WOMENS / FEMMES" or "KIDS / ENFANTS" depending on the style. Print white on black in an 8-point font.
